## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 4,8-13 are allowed.

### ***Claim Rejections - 35 USC § 103***

Claims 14,17,18 are rejected under 35 U.S.C. 103(a) as being unpatentable over APA in view of DeVries. See the previous office action for this rejection.

### ***Response to Arguments***

Applicant's arguments filed 10/20/06 concerning the above rejection have been fully considered but they are not persuasive. DeVries liquid is used to help control the duct problem. Since DeVries apparatus is a shredding mechanism , it is analogous art and there is no reason why the teachings of DeVries cannot be combined with APA which also includes a shredder. Furthermore, not being a mobile shredder (APA including a mobile shredder) does not render DeVries as non-analogous art since as noted above it is a shredder.
